Privacy Policy

VHS Studio · Effective date: October 16, 2026

Summary

VHS Studio is designed to work entirely on your device. We do not collect, store or sell personal data. We have no accounts, no servers that receive your content, and no analytics, advertising or tracking tools in the App.

1. Who we are

This Privacy Policy explains how the VHS Studio mobile application (the “App”), provided by Anton Dudar (“we”, “us”, “our”), handles information. Contact: support@antondudar.com.

2. Information processed on your device

To provide its features, the App uses the following on your device only. None of it is sent to us or to third parties.

- **Camera and microphone.** Used to record video and sound when you use the camera. Recordings are processed on the device and saved to your photo library when you choose to save them.
- **Photo library.** Used to show your photos and videos in the App so you can apply effects to them, and to save the results. The App may read the capture date stored with a photo or video to offer it as the on-screen date stamp.
- **Settings and presets.** Your choices (such as the selected effect, on-screen display and date settings) and any presets you create are stored locally on your device.

You can grant or withdraw these permissions at any time in your device settings.

3. Purchases

Subscriptions are purchased and processed by Apple through the App Store. We do not receive your payment details. The App checks your subscription status with Apple on your device to unlock PRO features; we do not store this information on any server. Apple’s handling of your data is governed by Apple’s Privacy Policy.

4. Sharing

The App never shares your content on its own. When you choose SHARE, or export a preset, the system share sheet sends the file to the app or service you pick; that recipient’s privacy policy then applies.

5. Contacting us

If you write to us, we receive your email address and whatever you include in your message. We use it only to reply to you and keep it no longer than needed for that purpose, unless the law requires otherwise.

6. Data retention and deletion

Because your content and settings stay on your device, you control them. Deleting a video from your photo library removes it; deleting the App removes its settings and presets from your device.

7. Children

The App is not directed to children under 13 (or the minimum age in your country), and we do not knowingly collect personal information from children.

8. Your rights

Depending on where you live, you may have rights to access, correct or delete personal data held about you. As we do not hold personal data apart from any email you send us, you can exercise these rights by contacting us at support@antondudar.com.

9. Changes to this policy

If our practices change — for example if a future version of the App adds a feature that needs data to leave your device — we will update this policy and its effective date before that feature is released.

10. Contact

Questions about this Privacy Policy: Anton Dudar, support@antondudar.com.
